Magalie R. Salas
Federal Energy Regulatory
Commission
888 First St, N.E. Room 1A
Washington, DC 20426

I am writing you concerning the Industrialization of Long Island Sound with the proposed liquefied Natural Gas Facility.

I am adamantly opposed to the facility. It threatens the environment, ecosystems, and economic balance.

Such a facility would endanger the health and safety of the people living in the surrounding areas.

I understand that this is the first of its kind. I am concerned that our environment will be used as the test site with possible disastrous results.

In addition, the US Coast Guard is charged with keeping the LI Sound safe for the surrounding communities. It my understanding that the Coast Guard will be used to protect this facility from the community.

What is your position on this proposed facility? Please send me information to indicate your position and what you have done to demonstrate your position.

Sincerely,

Colleen Nicholas
